WORK EXPERIENCE

InternShip

Chegus Infotech   Jan 2024-currrent
Bengaluru, India

- Provided project progress updates and proposed solutions to issues.
- Enhanced intern productivity by assisting with project coordination and providing ongoing support.
- Facilitated successful completion of projects from concept to launch.
- Explored new technologies and approaches to streamline processes.
- Conducted research for various projects, leading to well-informed decisions and successful outcomes.
- Developed organizational skills through managing multiple tasks simultaneously while adhering to strict deadlines.
- Conducted regular reviews of operations and identified areas for improvement.
- Actively participated in team meetings, offering insightful suggestions that led to innovative problem-solving strategies.
- Improved project outcomes by conducting thorough market research that informed strategic marketing decisions.

Projects

- **Channel Management(Java configuration)**, I had created Channel Management using Spring MVC. Managing the channels and Types in db. OneToMany Relationship, JPA used. Ajax calls, JQuery, Spring forms used for UI. Used Internationalization and localization and Tiles xml.
- **BMI(Responsive Webpage)**, I had created BMI calculator website. Calculating the Body mass Index of a person. Produce how to maintain healthy BMI. Takes dynamic values form user.
- **Student DB Webpage(Responsive)**, It shows about the student detail's and uses the details in the Jason. Dynamic inputs from the user. Drag and drop API used.
- **Fashion Website(Responsive)**, It shows the trendy fashion clothes with its info. Animation used. Event handlers for hamburger menu. Pop-ups for invalid events. Tip Calculator page(Responsive), Calculates the tip amount for the waiter. Event handlers used. Dynamic input from the user.
